

CHEMISTRY FOR RADIOPHARMACEUTICAL INNOVATION

CHELATORS FOR NUCLEAR MEDICINE

From chelator design to cGMP manufacturing

CheMatech supports radiopharmaceutical programs from molecular design to manufacturing.

CHELATOR SUPPLIER

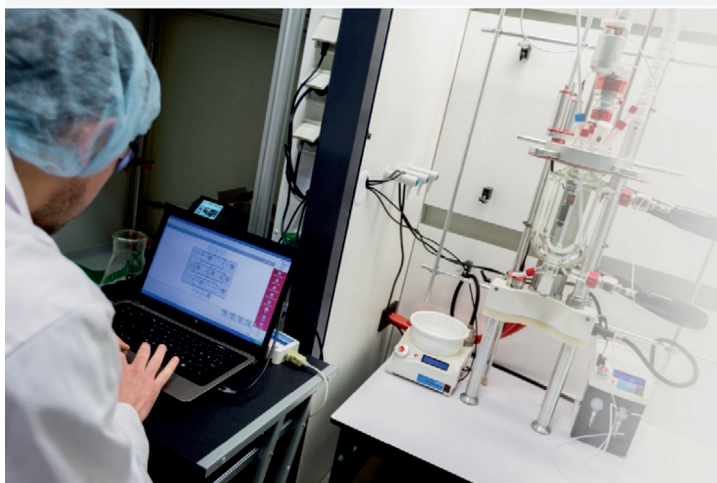

Innovative chelators for radionuclides.

CUSTOM SYNTHESIS & PROCESS SCALE-UP

Design, process development and scale-up.

cGMP MANUFACTURING

Dedicated in-house production from milligrams to kilograms.

END-TO-END CHELATOR CAPABILITIES

FROM DISCOVERY TO cGMP

20

YEARS OF EXPERTISE

R&D → cGMP

IN-HOUSE CAPABILITIES

mg - kg

FLEXIBLE SCALE

Integrated support from early development to cGMP manufacturing.

MORE THAN CHELATORS

BIOCONJUGATION SERVICES

Lysines, cysteines, click chemistry, ...

cGMP PRODUCTION OF BIOCONJUGATES

Process development, scale-up and cGMP manufacturing

PRECLINICAL IMAGING

Support for pharmaco-imaging studies

YOUR PROJECT. OUR CHEMISTRY.

LET'S BUILD THE RIGHT CHELATOR FOR YOUR PROGRAM
