

Celebrating 60 Years of Safe and Reliable Operation

For 60 years, scientists at MURR have conducted groundbreaking research and collaborated with industry partners to develop unique products, including lifesaving radiopharmaceuticals.

The MURR facility is the highest-power university research reactor in the United States and operates 24 hours per day, 365 days of the year. This power and reliability makes MURR an essential resource for researchers, scientists, engineers, students and industry partners.

How can we partner with you?
